

If you are a Real Estate Professional, a Developer, a Home Builder, or a FSBO, we know we can help sell your property.

Your property will get 24X7 exposure on the Internet. The web pages display large high quality photographs of your listing in brilliant color. Compare the size and quality of our photographs to other websites and you will see the difference. Simply E-mail us your photographs. **You can see your site live on the Internet before you pay anything!**

Attachment basics

Send your photos in an E-mail as file attachments. Here's how: (If you still need help after reading the instructions below, just write or call us and we will be happy to assist you!)

To attach a photo in Outlook:

Click New to open a Message window.

Fill in the To and Subject boxes as usual and type any message you wish to accompany the photos.

Click Insert File (the paperclip icon), locate your file through the Insert File box, click the file's name and then click the Insert button. If you wish to add multiple files from within the same folder, hold down the Ctrl key while clicking multiple files, then click the Insert button.

Repeat Step 3 for any other files you wish to attach. Click Send.

To attach a photo in Outlook Express:

Click Create Mail to open a New Message window.

Fill in the Send To and Subject lines and type in your message.

Click the Attach button, locate the file in the Insert Attachment box and click Attach. Use Ctrl-click to select multiple files. Click Send.

To attach a photo in Netscape Mail:

Click New Message to open the Compose window.

Fill in the To and Subject lines, and type in your message.

Click the Attach button or, in Netscape 6, click in the empty Attachments box.

Select your file in the Enter Files to Attach dialog and click Open.

To attach multiple files, repeat Steps 3 and 4. Click Send.
